# Garden JOURNAL

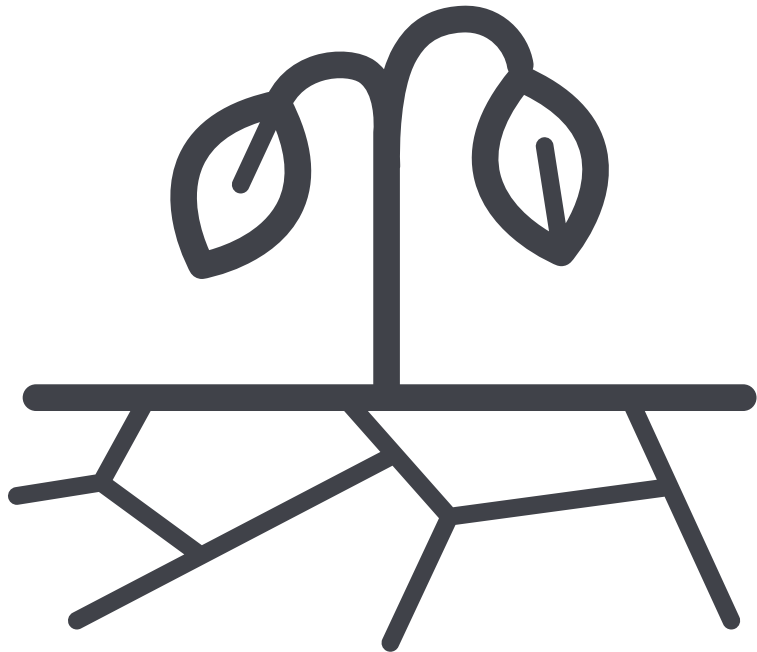

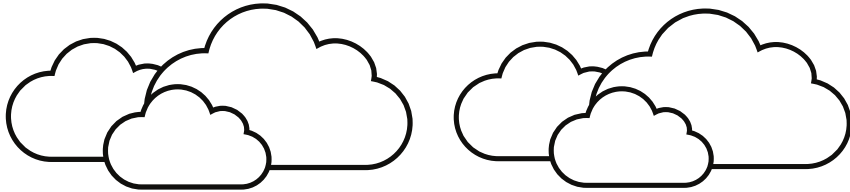

**Drought Tolerant Plants**

## LESSON 1:

### GRAPHING THE DROUGHT

A **drought** is a water shortage that happens when there is not enough rain for a long time.

Help the plant grow by drawing rain falling from the clouds!

1

### *Color me!*

Building rain gardens are one way we can help water sink into the earth.

6

## LESSON 2:

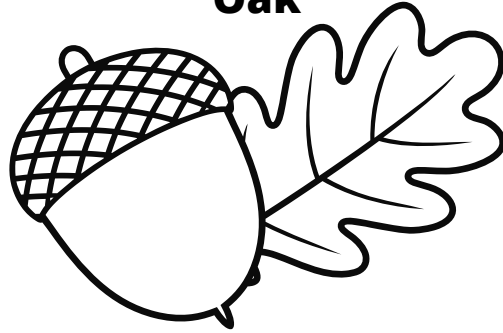

### INVASIVE VS NATIVE PLANTS

**Color in all the native plants**

**California  
Poppy**

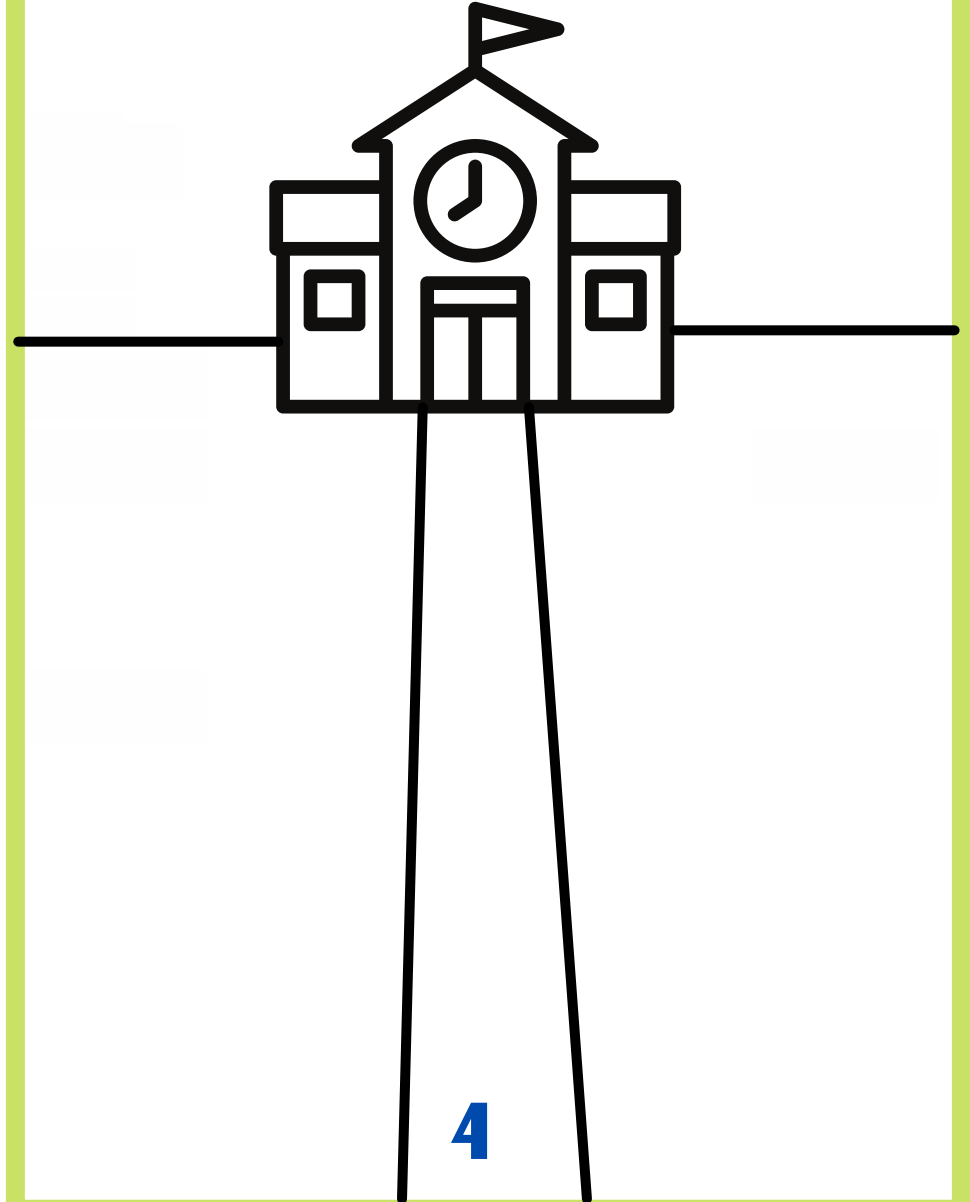

**Oak**

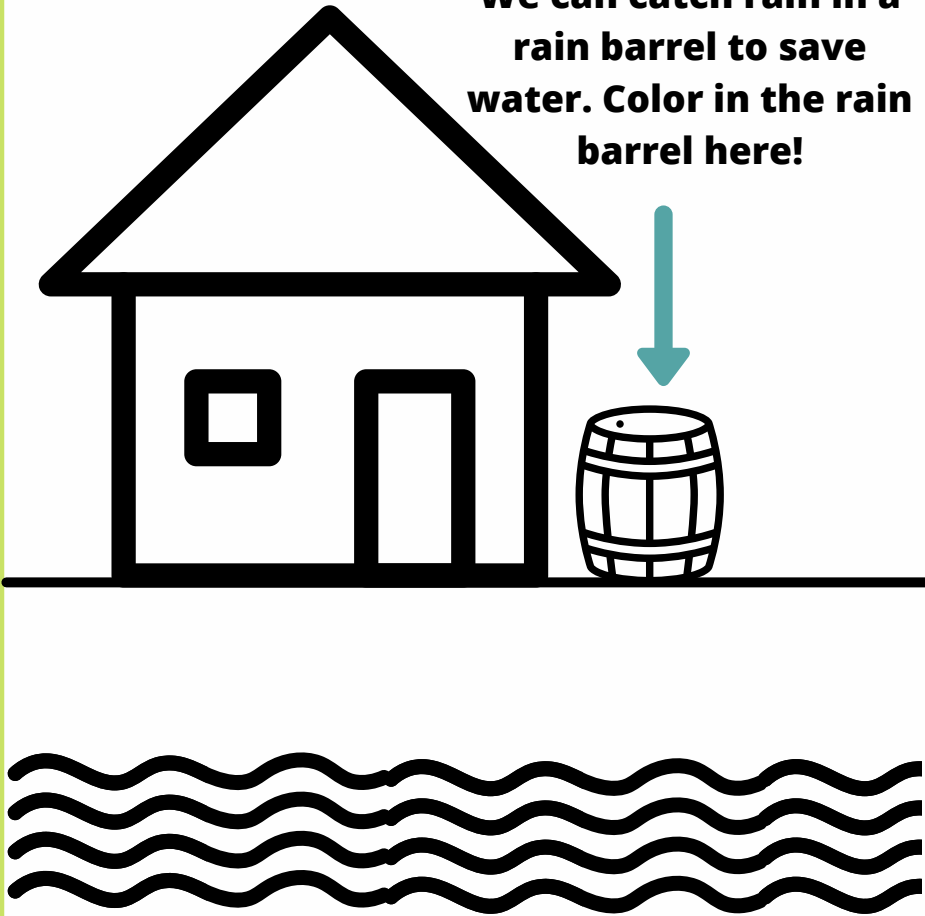

**Sage**

**Landscaping is when we add or remove different plants to look beautiful. Draw in the landscaping in front of the school.**

## LESSON #3: RAINSCAPING

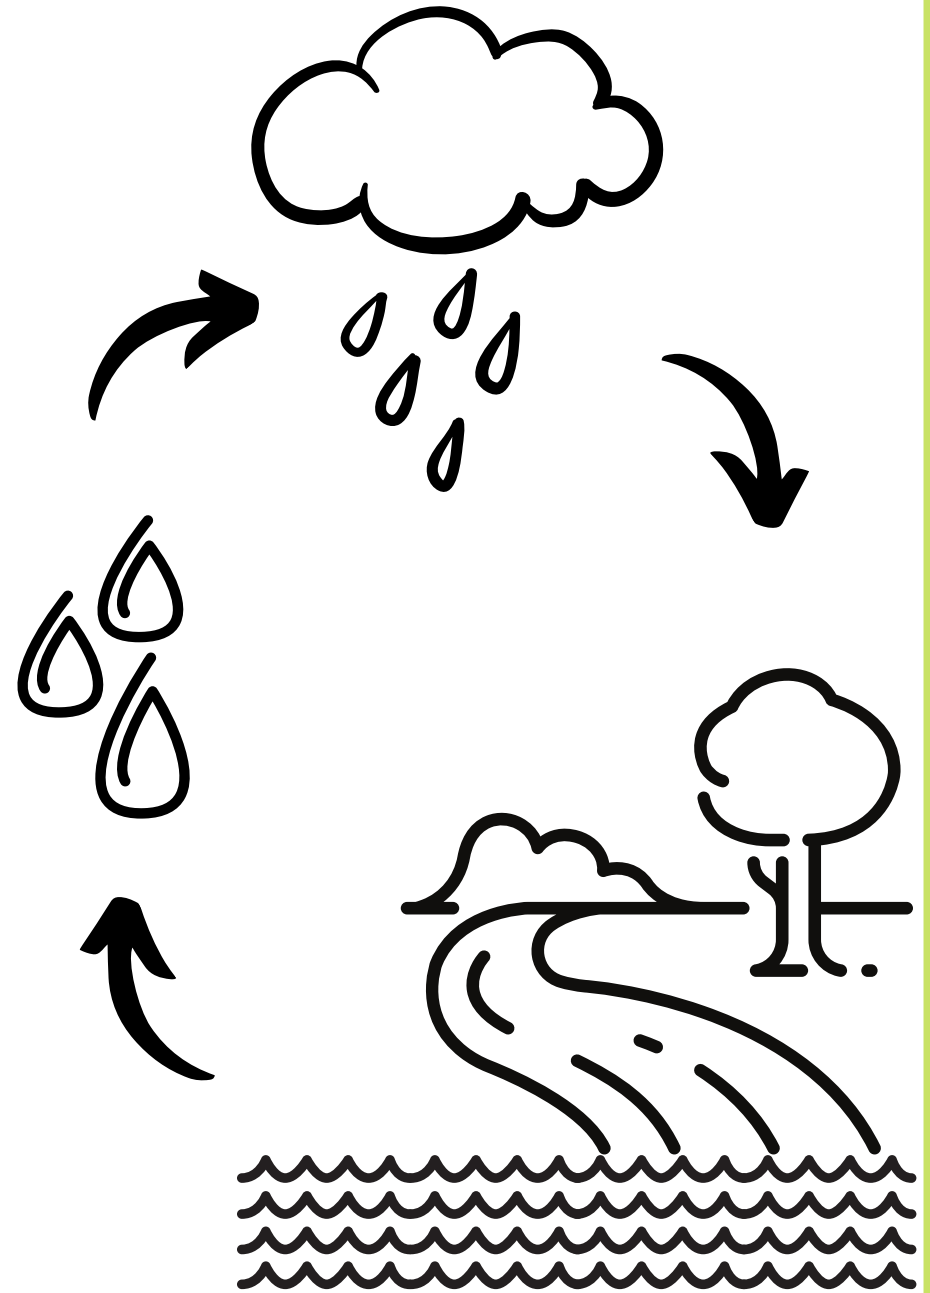

We can catch rain in a rain barrel to save water. Color in the rain barrel here!

There are rivers underground and they are called groundwater. Color in the ground water here!

5

Color in the water cycle.
