

ONE COOL EARTH'S ZERO WASTE CHALLENGE

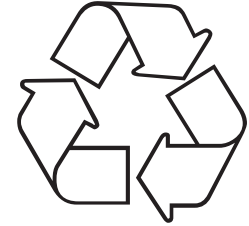

Show that each task has been completed by coloring in the pictures. Bring this sheet back to your Garden Educator to receive a prize once all of the pictures are colored in!

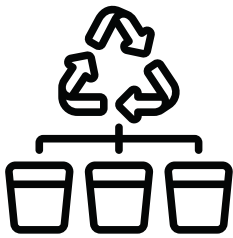

Create labels for your home recycling, compost, and landfill containers.

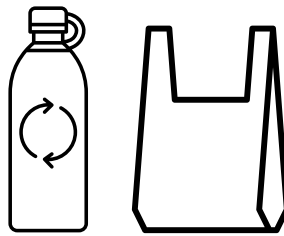

Collect all of your family's organic food waste and dispose of it in a green bin or composting system.

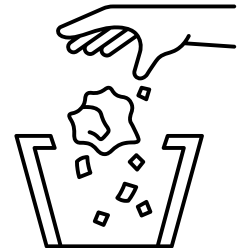

Visit IWMA.com and learn about what *can* and *cannot* be recycled in our county!

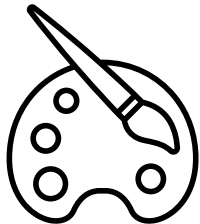

Help a fellow student properly sort their recycling vs landfill waste during lunch.

Reuse a water bottle at school or bring your own bag to the grocery store with your families.

Complete a litter pickup walk either in your neighborhood or at school.

Complete an 'up-cycled' art project out of materials that would otherwise be discarded!

Help your family out by taking out the waste bins on trash day.

Bonus:
Follow [@onecoolearth](https://twitter.com/onecoolearth) to learn about more waste reduction strategies!

To be entered to win a GRAND prize, tag us in a photo that demonstrates task completion! The challenge ends on October 18th.
